# hat

design by alain monnens

At first glance, the HAT appears to be a classic-style floor lamp—but it is much more than that! The elegant one-piece base supports a supremely functional shade. Because of the original manner in which this shade is mounted, it can easily be swivelled into a new position, turning your 'downlighter' into an 'uplighter'. Both the shade and the base are offered in two different colours, which can be freely combined with each other.
