LIGHTING

Sistema Fonda

Gabriel Ordeig, 1990

Pendant lamps

In the early 1990s, artist, designer and Santa & Cole founder Gabriel Ordeig Cole was commissioned to design the lighting for a large restaurant – Fonda Europa in Granollers (Barcelona). The aim was to achieve a pleasant, consistent colouration to accompany diners' conversations under excellent lighting. And this was the result that was ultimately implemented. Through the use of segments of one or three shades, and three types of connectors between them (the final part, an intermediate straight connector and a connector at a 90° angle) an entire lighting system is arranged, based on linear tube structures on which varying types of shades may be placed.

The Sistema Fonda, with small and medium-size ribbon, cardboard and white linen shades, all supported by brief ossicles of natural beech, provides extraordinarily lavish lighting and bears a highly contemporary appearance in serving a hugely classical purpose: hanging structures that irradiate light from a recurring array of lamps. A remarkable exercise in amalgamation, conferring all planners with a wealth of freedom.

GENERAL DESCRIPTION

Satin nickel tubular structure with natural beech wood supports for 1 or 3 lampshades.

3 lampshade options: P1, P2 y M1

S&C satin nickel metallic ceiling plate. Suitable for side entry adaptor.

Maximum 1200 W per line (6A). One connection per line.

Junction Box adaptor included Ø 11,7 cm / 4.6" (UL market).

Electric cable length: 3 m / 118.1"

Stitched beige parchment
P1, P2, M1

Natural ribbon
P1, P2, M1

Red-amber ribbon
P1, M1

Black ribbon
P1, M1

Terracotta Raw Color ribbon
P1, M1

Green Raw Color ribbon
P1, M1

Mustard Raw Color ribbon
P1, M1

White linen
P2, M1

LIGHT SOURCE

Recommended light sources:

1/3x LED bulb: 10 W

1/3x Compact fluorescent: 20 W

1/3x Incandescent: Máx. 100 W

E27 - E26

(Max. hgt. 115 mm / 4.5")

Light source not included.

Compatible with bulbs of the Energy

efficiency class (E.E.C): A++... E.

Suitable only for indoor use.

Always use the light source recommended or equivalent.

Input voltaje: 100, 120, 230 Vac.

(50 Hz / 60 Hz). According to destination.
